MTSM 2025

14th International Conference Mechanical Technologies and Structural Materials

In association with

Split, September 18th – 19th, 2025

Call for papers

The Organizing Committee invites authors and participants to submit paper title and abstract (maximum 150 words) for the Conference not later than June 15th, 2025. Please, identify the topic area in which your article should be included.

Conference objectives

Industrial progress is closely connected with development and application of new structural materials as well as new processing technologies, rational use of existing and developing new energy sources. Particular interest is also concentrated on organization of production processes, quality management and environmental protection. At the Conference, leading scientists and experts from Croatia and abroad will present their latest achievements in areas of advanced mechanical technologies, energy engineering and new mechanical structures. The Conference will also provide an opportunity for collaboration and discussions which may form the basis of future cooperation among the scientific society and manufacturing businesses.

Topics

- Production Mechanical Technologies
- Structural Materials
- Industrial Engineering
- Energy Engineering
- Advanced Design Technology
- Production Management
- Quality Management
- Environment Protection
- Computer Simulations of Production Processes
- Tribology

Presentation

Scheduled presentation time for each presenter is about 15 minutes with an opportunity for some questions. The presentation room is equipped with a projector and Power Point Facilities. There is a possibility that papers, meeting the criteria of Scientific Committees of the "International Journal for Engineering Modelling", will be published in one of the next volumes.

Authors of chosen papers will be notified and invited to amend and extend their papers for publication. The authors will be also invited to agree the publishing terms.

MTSM Conference Proceedings are since 2017 indexed in SCOPUS database (Elsevier).
